# OBJECTIVE RISK ASSESSMENT

## AEGIS London CONTINGENCY

**In today's world, risks are constantly evolving. AEGIS London, as a Lloyd's syndicate and as part of a long-established mutual insurance business, is able to plan effectively and manage the challenges this presents, providing continuity and security to our clients.**

We are one of over 50 businesses operating within the Lloyd's market, firms of highly experienced specialist underwriters who accept risk on behalf of a range of capital providers. Together, we form one of the world's largest commercial insurance and reinsurance brands.

The breadth and depth of specialist underwriting and broking expertise, brought together under one roof at Lloyd's, underlies why we are trusted to insure the world's newest, toughest and most complex risks.

Our business comes from all over the world, to London, because of Lloyd's.

We are strong in certain areas because we invest in understanding them. We then take these strengths, for instance in the actuarial, engineering and catastrophe modelling disciplines, and exploit them pragmatically for the good of our clients. We are also constantly looking for opportunities to bring a new, higher level of technical expertise to everything that we do.

The Lloyd's name may act as our calling card, but it is AEGIS London's growing reputation – our aspiration to be the best – that sticks in people's minds.

This reputation, of course, starts with our people. They forge and retain personal relationships with clients and teams are small so there is continuity of contact. This leads to an open culture, easy transfer of information, swift decision making and effective resolution of claims.

AEGIS London's contingency and special risks team offers underwriting in a fascinating sector – entertainment, leisure, media and promotion – but brings to it the professionalism, creativity and attention to detail evident in all of the markets in which the company operates.

Contingency is a mix of different products, each with different characteristics and different audiences.

We succeed because when someone comes to us with a problem, where standard cover doesn't suit, we can create bespoke programmes, writing a contract from scratch or tailoring one from a core product to something completely different.

Over the past two decades, the team has built a reputation for its expertise on the global stage. We engage with the client and their risk but never lose sight of the need for objectivity in assessing that risk.

This approach means that we consistently lead the majority of the projects we are involved with.

Our team is able to focus on the business needs of our clients because we have access to the overall resources of AEGIS London – leaving us free to make better decisions, quicker.
