

MARINE LIABILITY

Bespoke cover for the shipping industry

COMMERCIAL ADVANTAGE. MUTUAL BENEFIT

EXPERTISE IN THE FIELD

AEGIS London **MARINE LIABILITY**

In today's world, risks are constantly evolving. AEGIS London, as a Lloyd's syndicate and as part of a long-established mutual insurance business, is able to plan effectively and manage the challenges this presents, providing continuity and security to our clients.

We are one of over 50 businesses operating within the Lloyd's market, firms of highly experienced specialist underwriters who accept risk on behalf of a range of capital providers. Together, we form one of the world's largest commercial insurance and reinsurance brands.

The breadth and depth of specialist underwriting and broking expertise, brought together under one roof at Lloyd's, underlies why we are trusted to insure the world's newest, toughest and most complex risks.

Our business comes from all over the world, to London, because of Lloyd's.

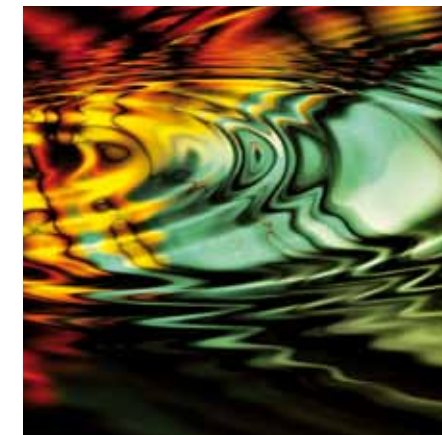

AEGIS London is strong in certain areas because we invest in understanding them. We then take these strengths, for instance, in the actuarial, engineering and catastrophe modelling disciplines, and exploit them pragmatically for the good of our clients. We are also constantly looking for opportunities to bring a new, higher level of technical expertise to everything that we do.

The Lloyd's name may act as our calling card, but it is AEGIS London's growing reputation – our aspiration to be the best – that sticks in people's minds.

This reputation, of course, starts with our people. They forge, and retain, personal relationships with clients, and teams are small so there is continuity of contact. This leads to an open culture, easy transfer of information, swift decision making and effective resolution of claims.

AEGIS London's marine liability team handles third party liability within one of the most hazardous industries in the world: shipping. This can range from providing cover for marinas (slip and trip, physical loss and damage to property) at one end of the scale, through to the dangers associated with the global shipping fleet at the other. Exposures include collision, pollution, removal of wreck, salvors' liabilities and liability for death and injury to crew members.

As a lead syndicate we are known for our extensive experience across many fields. We set terms and conditions and can tailor coverages to the benefit of our clients. We happily cover more generic risks, but thrive on doing the 'weird and wonderful'. Brokers come to us because we are flexible and able to rise to the challenge of the unusual, whether it be from the hazards of salvaging a distressed vessel and minimising a serious oil

spill through to smaller risks such as environmental bodies charting reefs and pristine waters.

With its depth of expertise, our five-strong team has the experience to ensure queries are dealt with promptly and effectively.
