

WAR AND TERRORISM

Providing cover in an uncertain world

COMMERCIAL ADVANTAGE. MUTUAL BENEFIT

CONSTRUCTIVE RESPONSE TO RISK

AEGIS London WAR AND TERRORISM

In today's world, risks are constantly evolving. AEGIS London, as a Lloyd's syndicate and as part of a long-established mutual insurance business, is able to plan effectively and manage the challenges this presents, providing continuity and security to our clients.

We are one of over 50 businesses operating within the Lloyd's market, firms of highly experienced specialist underwriters who accept risk on behalf of a range of capital providers. Together, we form one of the world's largest commercial insurance and reinsurance brands.

The breadth and depth of specialist underwriting and broking expertise, brought together under one roof at Lloyd's, underlies why we are trusted to insure the world's newest, toughest and most complex risks.

Our business comes from all over the world, to London, because of Lloyd's.

AEGIS London is strong in certain areas because we invest in understanding them. We then take these strengths, for instance in the actuarial, engineering and catastrophe modelling disciplines, and exploit them pragmatically for the good of our clients. We are also constantly looking for opportunities to bring a new, higher level of technical expertise to everything that we do.

The Lloyd's name may act as our calling card but it is AEGIS London's growing reputation – our aspiration to be the

best – that sticks in people's minds.

This reputation, of course, starts with our people. They forge and retain personal relationships with clients and teams are small so there is continuity of contact. This leads to an open culture, easy transfer of information, swift decision making and effective resolution of claims.

The reputation of AEGIS London's war and terrorism team for consistency and dependability means that our clients stay with us.

We pride ourselves on offering a prompt service. Regardless of whether business is placed electronically or on a face to face basis, in a market where flexibility of approach and speed of response are paramount, brokers rely on us for a prompt and constructive answer.

We cover a vast range of buildings and structures across the world, from power stations to art galleries, refineries to hospitals and from air, rail and road infrastructure to office blocks and private residences. Although much of our business originates from North America and Europe, we are open to risks from anywhere in the world.

Like other underwriting teams within AEGIS London, we are always willing to entertain more challenging risks or difficult business. Even when we say no, we are very open and transparent, sharing our logic and rationale.

AEGIS London's aviation war portfolio contains the majority of globally recognised flag carriers, covering aircraft hulls against loss or damage from hijacking, bombing and other warlike action, together with XS AVN 52 liabilities covering the risk to third party property. We also offer marine war coverage, with specific forms tailored for areas of conflict.

WAR AND TERRORISM
