

# Renewables Online

## Property Insurance for Small PV Solar and Battery Energy Storage, Made Easy

### Purpose-Built Protection

Our online platform streamlines the way Policyholders secure coverage, designed specifically for renewable energy projects and the requirements of tax credit lenders. It's fast, flexible, and built to support growth.

#### Why It Matters

- **Accelerate project insurance** with an innovative rapid quote-and-bind system
- **Customize coverage** with flexible policy structures to suit the unique needs of each insured
- **Scale with confidence** Supports policies with up to 10,000 locations
- **No Minimum Premiums**

#### Broad, Tailored Coverage

- Property All Risk Renewable Energy Policy Form
- Limits up to **\$5,000,000 per Occurrence**, and **\$10,000,000 in the Annual Aggregate** for Natural Catastrophe Perils
- Hybrid construction/operational coverage for **seamless protection between all stages of a project's lifecycle**
- Coverage available across the **48 contiguous United States**

**ARO** Powered by AEGIS' OPAL platform
